

CBKNB01-Crossbar King mini

OPTIONAL
Rebound Panels

OPTIONAL
Scoreboard

Crossbar King mini is a scaled down version of the Crossbar King games wall we normally install in big parks or MUGA's. The concept is inspired from Soccer Am's Crossbar Challenge game and includes 7 multi coloured crossbars that are made from galvanised steel tubes.

This game is perfect for fun amongst friends and footballers that want to practice their accuracy from different distances.

It also helps with personal goal setting, maths, thinking strategically and increasing kicking and throwing skills.

Quick start rules: Spin the wheel on the scoreboard to select which distance to shoot from and aim to the crossbar to see who can be the first to earn 21 points.

Thermoplastic
Ground Markings

Optional tarmac or astro
turf available/ dependant
on site and budget.
Minimum area required:
4m x 12m
