

# SSNB01-Street Snooker™ mini

Street Snooker™ *mini* is a scaled down version of the family inclusive games wall installed in many parks. It helps develop many positive outcomes such as personal goal setting, maths, thinking strategically and increasing kicking and throwing skills.

**Quick start rules:** spin the wheel on the scoreboard to select which random ground spot to shoot from and aim to the numbered targets to see who can score the most consecutive points. Try following the basic rules of snooker by aiming for the red target and then a different colour before returning to the red.

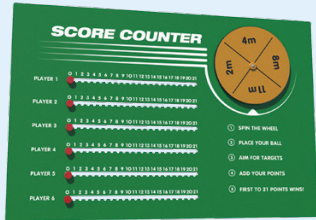

Check out [www.streetsnooker.com](http://www.streetsnooker.com) for video clips!
