

Introducing Playinnovation™

Friday 15th October 2010

Welcome to the Playinnovation™ website! Here you can find out all you need to know about the company and our exciting new gaming products.

It's time to forget traditional outdoor games - a new generation is here!

Founder's Statement

As a company, our ambitions centre on the promotion of physical wellbeing in communities. We provide truly innovative outdoor recreation solutions that are packed full of benefits for young people and families. We believe that through play we can nurture youthful enthusiasm and talent.

Marco Boi, Founder & Director

We are committed to working with our customers to provide quality solutions for a range of budgets and area specifications. Whether you're sourcing your first game, or need a solution to revamp an existing, tired ball court; we offer affordable options to suit challenging budgets, at a time when local authorities are looking to save money.

Our games are developed to push the boundaries of imagination and we are proud to launch our first product, **Street Snooker™** - a brand-new game combining snooker and football in an instantly addictive format.

Street Snooker follows the basic rules of snooker, but instead using a cue, you kick or throw ball at a uniquely designed target. Players spin the wheel on the scoreboard to select which ground symbol they shoot from, then pick a colour and try to build a high break! **[Find out more about Street Snooker.](#)**

Please contact us with your queries, comments, or just to say 'hi' – we'd love to hear from you.

Marco Boi
